## SUMMARY

I'm a creative and detail-driven Web Developer with a strong passion for building clean, responsive, and user-friendly digital experiences. I combine my background in UI/UX design and data analysis to create websites that not only look great but also communicate information clearly and effectively. Skilled in tools like Figma, Canva, Power BI, and Tableau, I enjoy turning ideas and data into intuitive designs and functional interfaces. I'm committed to delivering meaningful, user-focused solutions that make a real impact.

## EXPERIENCE

### Web Developer

Technoriya eTechnologies Pvt.Ltd Jan2025-Present

- Developed responsive, user-friendly interfaces for HRMS, real estate, and healthcare applications.
- Built clean UI components, dashboards, and interactive features using modern front-end technologies.
- Translated client requirements into intuitive designs and functional front-end solutions.
- Ensured consistent branding, smooth performance, and optimized front-end deployments.

## PROJECTS

- Spice Emporium:** Developed a responsive e-commerce UI with product listings using React and TypeScript.
- Online Medical Website:** Built a responsive medical consultation interface with appointment booking features.
- ERP System – Quotation & Invoice Generator:** Designed responsive front-end screens for quotations and invoices with PDF support.
- Spectrum Innovative Engineers Pvt. Ltd. (SIEPL):** Created a fully responsive corporate website using HTML, CSS, and JavaScript.
- Bag E-commerce Website:** Designed and developed a product showcase and shopping interface using HTML, CSS, and JavaScript.
- CRM Application:** Built front-end dashboards and reusable UI components using React.js, HTML, and CSS.
- Nidra Homes:** Developed a responsive e-commerce UI including product catalog, cart, and checkout, integrated with backend APIs.
-
